

BEST PRACTICES

INFANT

Rear Facing Infant & Convertible Seats

- NEVER in front of an airbag
- Keep rear facing to upper weight or height limit or two years old
- Harness snug and at or below shoulders
- Chest clip at armpit level
- Attach to car with seat belt or lower anchors
- No after-market products

California Car Seat Law:
As of January 1, 2012, CA law requires that all children under age 8 must be properly buckled into a car seat or booster in the back seat.

TODDLER

Forward Facing Seats

- Up to 40 - 85 pounds
- Harness snug at or above shoulders
- Chest clip at armpit level
- Attach to car with top tether strap and seat belt or lower anchors
- Use a 5-point harness to upper weight or height limit of seat

BOOSTER

Booster Seats

- Until 4' 9" and 8-12 years
- Always use lap/shoulder seat belt
- Never put shoulder belt behind back or under arm
- Use highback booster for vehicle seat without headrest

SAFETY BELT

Adult-size Seat Belts

- Back straight against vehicle seat, and knees bent at seat edge
- Shoulder belt across chest, not neck or throat
- Lap belt low and snug across upper thighs, not stomach
- Children younger than 13 should always ride in the back seat

Are you buckling up your child correctly?

4 out of 5 children are not buckled up right

- 1) Do you know which seat is best for your child?
- 2) Is your child facing the right direction?
- 3) Are they buckled up in the safest back seat?
- 4) Is the seat installed tight enough that it does not move more than 1 inch.
- 5) Is the harness at the right place on your child's shoulders?
- 6) Is the retainer clip in the right spot?
- 7) Do you know the 5-step test (how to tell if child is buckled up in the seat belt right)?

We offer personal assistance by appointment only. We will show you step-by-step how to install your child's car seat and answer any questions you have.

PROFESSIONAL INSTALLATION
